## Reporting Outcomes

## News

Download the current Nevada SOAR Procedure information here

***It is almost that time again!*** Every year we are asked to report SOAR outcomes for Nevada to our national SAMHSA-sponsored technical assistance provider. We know you are busy people, hard at work providing quality service and care to our most vulnerable community members. However, we want to brag on all of the good work that you do!

We are excited to announce that HMIS users are now able to track SOAR outcomes in the system! Instructional video coming soon!

Please click below for more

Although it is an additional step in your process, this allows us to know how we are doing so that we can focus on areas that can get better, and celebrate what we do well. **If you are not an HMIS user**, Please continue to use the the [SOAR Data Form](#) to track the status of your SOAR cases and provide your outcomes to the [SOAR state team](#). As a reminder, we will be asking for SOAR data for the period of **7/1/14-6/30/15**.

How has SOAR changed the lives of those you serve? How has it changed your practice? How has it changed your agency's program(s)? We want to hear from you and celebrate your successes! Please share your stories, so that we can continue to remember the reason for the work we do

information:

Welcome new SOAR Practitioners! We know that many of you are getting ready to start working on your first cases. Please remember that we not only provide training, but ongoing support! If you are new to SOAR practice, please remember that you are not alone; the [SOAR Team](#) is here to provide support and answer any questions! Remember to send your first MSR's for review and

feedback prior to submitting to the DDS adjudicator.

**Remember....**

## Upcoming Training Opportunities:

As many of you know, SOAR training has moved towards an online format. This training is easily accessible, and allows participants to complete training around their availability.

**If you or anyone you know would like to enroll in our online course, please [contact us](#).**

However, this is *only the first step!*

We provide a follow up training, which is a **one day live workshop** which covers basic fundamentals, Nevada-Specific procedures, and features guest

speakers with opportunities for Q&A. Graduates of our online course will be invited to these workshops as available. *Stay tuned for upcoming opportunities in your area!*
